

# Boccia Fusion

The complete competition level ramp kit for Boccia athletes

The Boccia Fusion incorporates an innovative pivot mechanism allowing the ramp to rotate whilst the base remains stationary, offering more precise adjustment.

The Fusion is sold as a complete play kit including two ramp extensions, a head pointer and D-ring ball holder with a carry case for ease of transportation.

This ramp features levelling feet with angle and length adjustable legs to guarantee a stable and level base.

This precision engineered ramp offers the highest degree of adjustability for the maximum range of shots.

## Features

- The kit includes: a Fusion ramp, 1x full extension (55cm), 2x half extensions (2x 27.5cm), a D-Ring ball holder, head pointer and a carry case
- Folds for ease of storage and transportation (rigid carry case included)
- Curved tip for a smooth ramp to court transition
- Clear perspex ramp and Flip-Top feature helps with lining up shots accurately
- Stable steel base with levelling feet
- Ramp rotates fully (360°) without moving base
- Rigid transport case with wheels

**£1550.00**

excl. VAT

**£1860.00**

# Boccia Nova

A sturdy metal framed ramp with a fixed base and a Flip-Top

The Boccia Nova is a versatile, easy to use ramp. It can be set up quickly and easily with simple adjustments giving you the advantage when it comes to launching accurate shots.

Now available with a Flip-Top to improve performance by allowing players to more accurately line up shots.

DEMAND's precision engineered Boccia Nova ramp offers excellent stability and guides each ball accurately onto the court.

The Nova is simple to operate even for novice ramp assistants, yet offers an excellent range of shots with its raised tip.

## Features

- Folds for ease of storage and transportation (carry bag included)
- Curved tip for a smooth ramp to court transition
- Clear perspex ramp and Flip-Top feature helps with lining up shots accurately
- Telescopic ramp arm is quickly and easily adjustable
- Stable steel base with levelling feet
- Compatible D-ring ball holder available separately
- Compatible ramp extensions available separately

**£650.00**  
excl. VAT

**£780.00**  
inc. VAT

## Technical Specification

- Ramp footprint min L:122cm x W:37cm max (legs fully extended) L:122cm x W:48cm
- Size (folded) L:121cm W:15cm D:22cm
- Weight: 6kg

# Boccia Pro-X

A freestanding ramp perfect for intermediate Boccia players

The Pro-X is a lightweight ramp with an integrated stand. The ramp angle is easily and quickly adjusted by hand.

A long adjustable extension makes the Pro-X perfect for long and fast shots across the full length of the court.

This ramp is perfect for players using electric wheelchairs where additional ramp height provides greater player comfort with no need to lean forward to play the ball.

The integrated ball holder is suited to players with a wide range of abilities.

## Features

- An improved ball holder that works at the steepest angles
- A 'V' shaped channel that guides the ball for straighter shots
- A new & improved indexing extension for speed control
- Easy shot direction and ramp angle adjustment
- Durable moulded plastic design
- An integrated tripod stand that folds for transport
- Zipped carry bag included

**£262.50**

excl. VAT

**£315.00**

# Boccia Lite

A robust and durable ramp perfect for Boccia beginners

The Boccia Lite is a firm favourite with schools and sports groups already and DEMAND's new & improved design allows for greater accuracy with long shots thanks to a 'V' shaped channel.

Now available with an extension (purchased separately) the Lite accommodates a wide range of long and fast shots on the court.

The integrated ball holder is suited to players with a wide range of abilities.

## Features

- An improved ball holder that works at the steepest angles
- A 'V' shaped channel that guides the ball for straighter shots
- An indexing extension (available separately)
- A durable one piece moulded plastic design suited to heavy use environments

**£52.95**  
excl. VAT  
**£63.54**

# Ball Stand

Keeps a full set of balls within reach

A great addition to your Boccia kit, the ball stand is height adjustable to keep balls within reach of a pair of players.

The ball stand is light weight and stable even at it's maximum height. It holds a full set of 12 Boccia balls and a jack. Balls not included.

## Features

- The height of the ball holder can be adjusted in an instant using the simple twist movement collar.
- Share with a friend and store up to 13 balls on 2 levels. A level can be removed for single players.
- Ergonomically shaped ball holders allows easy access to every ball

**£195.00**

excl. VAT

**£234.00**

inc. VAT

## Technical Specification

- Height: 70-128cm
- Width: 28cm diameter
- Weight: 3kg (without balls)
- Colours: White, Black (both with a black tripod stand)

# Head Pointer

An adjustable head pointer for ball release

DEMAND's head pointer is perfect for BC3 classification athletes using a ramp to propel the ball.

The head pointer has a full range of adjustability including length and angle adjust, giving the player complete control.

The head pointer is a perfect partner to the D-ring ball holder.

The cap is reinforced to give a stable base for the head pointer.

## Features

- Lightweight
- Adjustable pointer length and angle
- One size fits most
- Chin strap for added stability
- Best used with the D-ring ball holder

**£100.00**

excl. VAT

**£120.00**

# D-Ring holder

A ball launcher for the Nova and Fusion

The D-Ring is an essential accessory that holds the ball ready for release by the player. The angle can be easily adjusted to account for the angle of the ramp.

The D-Ring can be positioned at any point on the ramp for maximum freedom to select shot power.

The D-Ring is compatible with both Nova and Fusion ramps.

## Features

- Can be positioned at any height on the ramp or extensions
- Can be used with a head pointer to push the ball under the D-ring holder, alternatively use a hand to release the ball by nudging the yellow handles
- Compatible with Nova and Fusion ramps

**£41.63**

excl. VAT

**£49.96**

inc. VAT

## Technical Specification

- Size: L:18cm W:19cm D:4cm
- Weight:0.3kg

# Ramp extension

Full and half length ramp extensions for Nova and Fusion ramps

The full extension allows the user to extend the ramp length of both the Boccia nova and fusion ramps.

Extensions increase the total ramp length giving an increased range with longer, faster shots on the court.

The 'plug and play' mechanism allows the extension to be easily added and removed without tools.

Mix and match full and half extensions to achieve the desired power for any shot.

## Features

- The full extension allows the ramp to be extended by 55cm.
- The half extension allows the ramp to be extended by 27.5cm.
- Compatible with DEMAND's Nova and Fusion ramps
- Smooth ball transition between the extension and main ramp
- Added and removed easily with no need for tools

<p>Full <b>£84.00</b> excl. VAT</p> <p>£100.80 inc. VAT</p>	<p>Half <b>£70.00</b> excl. VAT</p> <p>£84.00 inc. VAT</p>
---	--

## Technical Specification

- Size (full extension): L:55cm W:11.5cm D:3cm
- Size (half extension): L:27.5cm W:11.5cm D:3cm
